**Project update – Night work on the Princes Highway, Arncliffe from Friday 29 July**

The NSW Government is funding the installation of a permanent electronic message sign as part of its $246 million Pinch Point Program, which aims to reduce traffic delays, manage congestion and improve travel times on Sydney’s major roads, particularly during weekday peak periods.

Roads and Maritime Services is continuing to carry out this work, which includes installing a new sign opposite Spring Street, to provide northbound road users with up-to-date information on traffic conditions and planned and unplanned incidents and events. We have included a map to explain the project’s location.

The work will be completed in three stages. The first and second stages have been completed which included putting in foundations, installing the structure and installing power and telecommunications cables. The final stage of work includes:

- Installing the electronic sign
- Installing a safety guard rail
- Testing the sign.

The work will take six night shifts to complete between **Friday 29 July** and **Monday 29 August**, weather permitting. Our night work hours will be from **9pm to 5am** between **Sundays** and **Fridays**. We will also be working during the day from **7am to 5pm** between **Mondays** and **Fridays**, and from **8am to 12pm** on **Saturdays**.

**How will the work affect you?**

There will be some noise associated with this work. We will make every effort to minimise its impact by carrying out the noisiest work during the day and before **11pm**.

**Traffic changes**

There will be some temporary traffic changes to ensure the work zone is safe.

Lane closures will be in place and may affect travel times. Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.
