Start of work on Wentworth Avenue, Pagewood from Wednesday 26 October

The NSW Government is funding the installation of a closed circuit (CCTV) camera at the intersection of Page Street as part of its $246 million Pinch Point and Clearways Program, which aims to reduce traffic delays, manage congestion and improve travel times on Sydney’s major roads, particularly during weekday peak periods.

Roads and Maritime Services will deliver this project which includes the attaching and wiring a CCTV camera to the existing traffic light post located on the south western corner of the intersection.

We have provided a map to help explain the location of the CCTV camera.

CCTV cameras provide real-times traffic information to the Transport Management Centre (TMC), which monitors and manages the road network 24 hours a day, 365 days a year. This helps the TMC respond quickly to congestion and road incidents to improve travel times.

This intersection was selected for a CCTV camera to provide visibility of traffic movements on Wentworth Avenue between Baker Street and Bay Street.

The work will take 4 night shifts to complete between Wednesday 26 October and Wednesday 9 November, excluding weekends, weather permitting. Our night work hours will be from 9 pm to 5am. We will also be working during the day from 7am to 5pm.

How will the work affect you?

There will be some noise associated with this work. We will make every effort to minimise its impact, including completing noisier work before 11pm.

Traffic changes

There will be some temporary traffic changes to ensure the work zone is safe.

Lane closures will be in place and may affect travel times. Please keep to speed limits and follow signs and the direction of traffic controllers. For the latest traffic updates, you can call 132 701, visit livetrffic.com or download the Live Traffic NSW App.

Contact

If you have any questions or feedback, please call our delivery partner LT Joint Venture on 1800 735 563 or email info@ltjv.com.au
